2021-22

Dear friends,

We, at BPI, are an enterprising children's publisher, synonymous with aesthetics and creativity in the field of publishing. Proud to be a part of the S.Chand Group, BPI has come a long way since its inception in the year 1999. It has successfully established itself as one of the leading publishers of children's books.

We launched our school books in the year 2019-20 and created books for both CBSE and CISCE boards. Continuing with the same, this year, we have added some more titles to our list. Adhering to prescribed syllabus and guidelines, the books are excellent in content and design, and boast of strong authorship to make the process of teaching-learning enjoyable. The books give students the opportunity to learn, explore and energise their minds. The educators will find the teaching experience equally satisfying and easy.

Our dynamic approach and exploratory mindsets are all geared to create appealing books that will engage children.

With this zeal, we would like to present to you our wide range of school books for the year 2021-22. Happy browsing!

7.	Art Carnival-4	40
8.	Art Carnival-5	40
9.	Art Carnival-6	64
10.	Art Carnival-7	64
11.	Art Carnival-8	64

Art Carnival is a series of art and craft books for levels A, B, C and classes 1 to 8. It has been created keeping in mind the guidelines provided by NCERT and various school boards across India. It conforms to the recommendations of NEP 2020 and encourages experiential learning, free expressions and creativity in children.

The books explore activities such as doodling, print making and colouring, and various techniques of drawing, sketching and colouring. Children learn about different colouring media and elements of design through fun activities.

The art and craft activities are based on rich Indian culture and traditional and modern art. The experiential activities provide an understanding and knowledge of all aspects of aesthetics and art.

Key features:

- Lesson plans outline the learning outcomes of each art and craft activity
- Graded activities with enough space for children to work
- Includes the study of basic tools and techniques, complex art movements and the works of master painters
- Contemporary concepts such as perspective drawing, creative lettering and typography are explained in a fun way
- Easy, step- by-step instructions and detailed illustrations encourage children to participate in the activities
- Fosters creativity and critical thinking
- Inter-disciplinary and integrated activities encourage logical and creative thinking
- Develops collaborative and communication skills and team spirit
- Craft material provided in an envelope with material holder

ISBN: 978939029940-9

ISBN: 978939029941-6

Growing with God is a series of interesting stories adapted from the Bible for young children, aimed to teach them and help them develop interpersonal skills as well as a sense of what is right or wrong. The stories instil moral values and life skills in children and encourage them to be noble, honest, kind, mindful and empathetic.

The series emphasises upon the importance of being virtuous, tolerant and respectful towards all human beings. Beautiful illustrations in the series bring the characters to life.

Each lesson is enforced with comprehensive exercises and, finally, closed with a question or activity that encourages children to think how the lesson could be applied in their own life.

Balu & Bela Happiness Programme has been conceptualised to help children acquire skills and abilities in all round development. This three-levelled course comprises clear concept-building, ample practice, creative expression, well thought out games and interactive activities. It closely relates to the guidelines of NEP 2020 which recommends joyful learning for foundational stage kids.

Children are equipped to boost their working memory, focus their attention and acquire self-control through interesting activities in this programme.

Key features of the programme:

- Builds foundational literacy, numeracy, cognitive abilities and creative skills and prepares kids for formal schooling
- Conforms to experiential and experimental methods of learning through interactive, group and team activities
- Adopts activity-based, play-based and fun-oriented approach to teach basic concepts
- 15 activity books added to each level, based on themes recommended by NEP 2020 for foundational years
- Includes teacher's handbook and detailed lesson plans for 175 working days with suggested teaching environment and creative methods to implement the programme
- Continuous support round the year through digital resources that include e-books, stories for reading readiness, vocabulary builder, printable worksheets, and a lot more
- Attractive school bag available for each level
- Inculcates healthy attitude, good values and life skills to be used in later life
- Emphasises on development of social and emotional skills, and character building
- Helps a child attain his optimum potential through physical well-being, personal and emotional development
- Promotes environmental awareness, mathematical thinking, critical thinking and logical reasoning
- Makes children ready for future challenges with 21st century skills

Wonder Science series conforms to the guidelines and syllabus prescribed by the National Council of Educational Research and Training. The content and the activities in the books are based on the experiential learning approach, where students are given opportunities to perform different tasks and construct their own understanding. The teachers can encourage students to question their knowledge and check it by performing different activities or experiments.

The pedagogy of the books is based on the student-centric approach. The books focus on developing scientific attitude in students where they construct concepts on their own and acquire different scientific skills such as observation, building hypothesis, performing activities, recording data and inferring. The content is accompanied with realistic pictures and illustrations to enhance students' learning.

Key features:

- **Learning Objectives:** The broader objectives that describe what students will learn in a chapter
- **Warm-up Activity:** Activity to recapitulate previous concepts and build interest
- **Activities and Experiments:** Hands-on activities and experiments for students to perform and apply their conceptual understanding
- **Knowledge Check:** In-text exercises to test student's understanding of concepts
- **Go Green:** Tasks or activities to create awareness towards healthy environment and surroundings
- **Do You Know?** Provides interesting facts connected to the concepts
- **Keywords:** Presents important words and their definitions
- **Summary:** Summarises key points of the chapter
- **Exercises (formative and summative):** A variety of tasks for students to apply their knowledge and understanding
- **HOTS:** Higher order thinking skills questions for students to go deeper into the concepts and develop reasoning skills
- **Life Skills:** Projects or activities to enhance life skills and social responsibility
- **Project:** Activities or tasks to explore more and dig deeper into the concepts learnt
- **Teacher's Notes:** Notes for teachers to facilitate learning in the class

Wonder Maths is a series of eight books for classes 1 to 8 that adheres to the National Curriculum Framework and is designed as per NCERT syllabus. Mathematics is about developing an understanding of the mathematical concepts and being able to use them in real life situations. Based on this understanding, this series is designed on the 'learning by doing' approach. It makes learning mathematics an exciting process.

Key features:

- Warm-up activities revisit previously learnt concepts
- Activities and projects encourage students to learn by doing and thus acquire mathematical skills
- Real life connectors integrate classroom learning with real life situations
- Mental maths encourages quick calculation
- HOTS and life skills based questions stimulate thinking skills
- Test papers for enrichment and evaluation of students' learning
- Fun time activities to make learning more interesting

“ICSE Toposheets and Maps for Classes 9 & 10” is written in accordance with the syllabus prescribed by the Council for the Indian School Certificate Examination for classes 9 and 10. This book aims to promote the culture and practice of map reading not just for the sake of securing good marks and completing the syllabus requirement, but also to inculcate in students a genuine interest for maps.

Maps are an integral part of our day-to-day life and their use is going to increase many folds in future. Today, when our cities, government and society are becoming smarter, our students need to be updated and smart enough to use the latest technology and facilities, that are freely and easily available for all.

This book tries to emphasise on the journey of maps. The rationale behind this approach is the benefit of studying maps in relation to history and looking forward towards the future. This book will be beneficial not only for class 10 board students but for class 9 students as well. If students are aware of the board examination curriculum, they are better prepared for the same and their interest for related news and information increases with time.

Key features:

- Complete coverage of class 9 and 10 syllabuses
- Focus on concept development and increasing awareness about use of maps
- Complete coverage of both the topographical sheets G43S7 (45D/7) and G43S10 (45D/10), prescribed by the council for ICSE board examination
- Includes a total of eighteen toposheet extracts with more than 250 model questions for practice
- Apart from topographical maps, all other map-based questions have been addressed
- Includes previous years' board papers with solutions
- Information about recent developments in Survey of India maps and Open Series Maps (OSM)
- Includes a transparency sheet with grid markings and directions to help students determine the location and identify the direction of places on a map
- Also includes a twine to help students measure the distance between two places on a map and calculate the actual distance on the ground

With ample number of India maps, world maps, related diagrams, graphs, charts and their concepts, this book will surely help the students in securing full marks in the subject, where map-based questions constitute major portion of the paper.

Learn with Banyan Tree (ICSE EVS)

A set of 2 books Size: 21.59 cm x 27.94 cm Paperback

8.	Hindi Praveshika	978938674195-0	128	₹265.00

Bright Kids forms a cohesive course for pre-primary children focussing on inherent skill development. It employs an engaging method to develop conceptual clarity and ensure effective learning. Interesting activities in the books develop visual discrimination skills, fine motor skills, and visual and auditory memory.

This is an activity-based pre-school series designed to lay the foundation for life-long learning and overall development. It comprises eight books – English 0A & 0B, Maths 0A & 0B, EVS 0A & 0B, Hindi Praveshika and Lines, Patterns, Writing. It develops basic language and numeracy skills and creates awareness about children themselves and their surroundings.

Key features:

- Consists of reading and writing activities keeping in mind the learning ability of children
- Tracing activities develop finger control and hand-eye coordination
- 'Concepts & Skills', given as footnotes, helps educators enhance the learning experience of children
- Practice, revision and reinforcement activities enhance mastery over concepts
- Develops cognitive ability, multiple intelligences and essential skills
- Fosters development of communication skills
- The interactive approach of the series and the focus on learning-by-doing creates a rich learning experience for children.

'Draw and Colour' is a series of graded drawing and colouring books. The activities start with practical introductions to different colours and shapes, and then move on to complex and increasingly interesting activities. The tracing and colouring activities in the junior books are simple yet efficient, with scope for children to learn to draw objects and then colour them. The senior level books stress more on tracing complex shapes, subtle filling up of colours, different methods of colouring, collage making, finger painting, etc.

Key features:

- Art and craft activities included in the books promote creativity
- Develops drawing, colouring and fine motor skills
- Progression through these graded books makes it easy for children to understand the basics of art.

ISBN: 978818497803-2

'Graded Phonics' is a series of three books, carefully graded to develop phonemic awareness and lay the foundation for spelling and word recognition skills. It adopts a systematic and fun-oriented way to introduce phonics to early learners. It aims to simplify phonics rules and complex word structures.

Each reading activity in the books is followed by a practice activity to stimulate interest, reinforce concepts and help children put their skills into practice. Bright and lively layout, supported by colourful illustrations, makes the learning process enjoyable.

Key features:

- Improves ability to blend sounds into words
- Develops pronunciation and spelling skills
- Develops listening, reading and writing skills
- Develops linguistic skills
- Builds vocabulary
- Notes given on each page highlight the skill sets being developed through the activities
